

▼ feature_extraction	Feature extraction
▼ feature_extraction with pretrained CNN	
▶ cnn-features	File for saving extracted CNN features in 'csv' format
compute_features_with_CNN.py	Main function for feature extraction with CNN
▶ nets	
▶ pretrained-models	File for saving pretrained CNN models in 'ckpt' format
▶ ts_to_image	
▼ feature_extraction_with_sift	
centroid_200.csv	
compute_features_with_sift.py	Main function for feature extraction with sift
LLC_coding.py	
LLC_main.py	
LLC_pooling.py	
▶ sift-features	File for saving extracted sift features in 'csv' format
▶ ts_to_image	
▶ ts-data	File for saving time series data in 'csv' format
▼ model_combination	Model combination
▼ R	
combination_ensemble.R	
ensemble_classifier.R	
forec_methods_list.R	
▶ forecasts	Forecasts of 9 methods in 'rda' format
generate_classif_problem.R	
hyperparam.R	
▶ intermediate.results	
model.comb.main.R	Main function for model combination
process_dataset.R	
subset_methods.R
